Final Test Plan – Tira Beauty Web Application

Application URL: https://www.tirabeauty.com/
Prepared by: Samarth Yadav
Date: 05/08/2025

---

1. Document Identifier

QA-TP-TiraBeauty-2025-v1

---

2. Objective

This plan is prepared for the **Tira Beauty website**, an e-commerce platform for beauty and personal care products.
The main objective is to verify **functional correctness, user experience, and responsiveness** of the website.

---

3. Components to be Tested

- User authentication (login, logout, invalid login)

- Contact Us page features

- Menu and category navigation

- User interface appearance and alignment

- Page redirection and link validation

---

4. In-Scope Features

- Valid and invalid login flows

- Homepage and category navigation

- Browser and device responsiveness

- Security of session handling

- Hyperlink validation

- Basic UI layout and display checks

---

5. Out-of-Scope Features

- Backend database structure

- High load / stress testing

- Third-party integrations like payment gateway

---

6. Testing Strategy

- **Manual functional testing** for workflows

- **Exploratory testing** for UI and usability defects

- **Cross-browser testing** (Chrome, Firefox, Edge)

- **Mobile responsiveness testing** on Android and iOS

- **Regression testing** after defect fixes

---

7. Success & Failure Criteria

- **Pass:** Feature works as expected in requirement.

- **Fail:** Feature doesn't behave correctly or blocks workflow.

---

8. Suspension / Resumption Rules

- **Suspend:** If build has critical blockers.

- **Resume:** Once a stable build is available.

---

9. Deliverables

- Test Plan Document

- Test Cases

- Defect Reports

- Execution Logs

- Final Test Summary

---

10. Test Environment

- OS: Windows 10 & Windows 11

- Browsers: Chrome, Firefox, Edge

- Mobile Devices: Android & iOS

- Network: Stable internet connection

---

11. Roles & Responsibilities

- **Test Lead:** Vaishali Sonanis – Planning & Reporting

- **Tester: Samarth Yadav** – Test Execution, Bug Reporting

- **Developers:** Nitin Zha, Minal Shah, Yug Tagi – Fix & Verify Bugs

---

12. Schedule

Activity	Date
Test Planning	05/08/2025
Test Case Preparation	10/08/2025
Test Execution	20/08/2025
Bug Reporting & Retest	30/08/2025
Test Closure	10/09/2025

---

13. Risks & Dependencies

- Possible browser compatibility issues → Mitigate with early testing

- Delays in development build → Coordinate with dev team

- Mobile responsiveness failures → Test on different screen sizes

---

14. Approvals

- **Test Lead:** Vaishali Sonanis

- **Project Manager:** Nawaz
